Subject: SC needs UBER

We deserve the right to have a choice and South Carolina does not need to be left behind in technology in innovation. We've made great strides in recent years and not allowing UBER to operate in SC will prevent us from moving forward as a state.

Please remedy this asap.

Subject: Uber rides

This is a safe and reliable way of getting around. Talk about public service or the lack of. The taxi cabs in Charleston are unreliable as to when they will pick you up.

Uber keeps drunk drivers off the road as well. I know of many friends that will use Uber when they feel they have had too many. This works well because the app tells you when and where your ride will be to pick you up. The taxi service may leave you waiting for up to an hour. When you call they just say the ride is on the way. This is when people trying to make the right decision not to drive give up and drive anyway.

I would hope that you have at least tried this service before making such decisions about it.

It's safe, reliable and affordable. Please stop giving well meaning company's a hard time.

Thank you,
Jamie Kinney

As a tourist who frequents myrtle beach frequently for golf and entertainment I promise I will not be back to South Carolina until Uber is back at operation at full capacity.

Subject: support for Uber

I am writing to express my support for Uber in South Carolina. Uber provides a much needed service in the Charleston area and I disagree with the "cease and desist" order presented by the state.

Because of its safety and ease of use, Uber helps consumers make good decisions regarding drinking and driving. It also allows convenient access to rides in non-commercial areas and provides an excellent value for its users. I ask that Uber continue to be available in South Carolina.

Respectfully,

Elena Tuerk
Charleston
